COMPUTERS IN INDUSTRY

Author index to volume 33

Andersson, N., Design principles for open and reusable shop-floor control software 285

Barschdorff, D., L. Monostori, G.W. Wöstenkühler, Cs. Egresits and B. Kádár, Approaches to coupling connectionist and expert systems in intelligent manufacturing 5
Behrens, A., *see* Roos, E. 139
Bolk, H., P. van Elswijk, T. Melis and A.M. van Praag, Only people learn: organisations and systems can adapt 209
Bongaerts, L., P. Jordan, P. Timmermans, P. Valckenaers and J. Wyns, Evolutionary development in shop floor control 295
Bowen, J., Using dependency records to generate design coordination advice in a constraint-based approach to concurrent engineering 191
Bradley, P., *see* Jagdev, H. 357

Cantamessa, M., Hierarchical and heterarchical behaviour in agent-based manufacturing systems 305
Chen, D., B. Vallespir and G. Doumeingts, GRAI integrated methodology and its mapping onto generic enterprise reference architecture and methodology 387

Davies, B.J., CIM software and interfaces 91
Dehaes, J., *see* Vanherck, P. 119
Detand, J., *see* Tanaya, P.I. 323
Doumeingts, G., *see* Chen, D. 387

Egresits, Cs., *see* Barschdorff, D. 5
Egresits, Cs., *see* Mezgár, I. 61
Egresits, Cs., *see* Monostori, L. 111
Ekmark, R.U., *see* Nelson, K.J. 237
Erens, F. and K. Verhulst, Architectures for product families 165

Franke, V., *see* Greska, W. 17

Gallagher, C., *see* Lawlor-Wright, T. 253
Gammack, J.G. and D.G. Jenkins, Learning from design histories in concurrent engineering 83
Geiger, M., *see* Greska, W. 17
Greska, W., V. Franke and M. Geiger, Classification problems in manufacturing of sheet metal parts 17

Horváth, M., *see* Márkus, A. 47

Jacob, U., *see* Nedeß, Chr. 127
Jagdev, H., P. Bradley and O. Molloy, A QFD based performance measurement tool 357
Jagdev, H., *see* Rajala, M. 367
Jagdev, H.S., Co-ordination in Manufacturing: CIM at Work 151

Jagdev, H.S., *see* Jansen, M.H. 395
Jäkel, F.-W., *see* Mertins, K. 345
Jansen, M.H., B.H.P.J. Vermeer and H.S. Jagdev, Towards a typology of electronic product information distribution 395
Jenkins, D.G., *see* Gammack, J.G. 83
Jochem, R., *see* Mertins, K. 345
Jordan, P., *see* Bongaerts, L. 295

Kádár, B., *see* Barschdorff, D. 5
Krömker, M., K.-D. Thoben and A. Wickner, An infrastructure to support concurrent engineering in bid preparation 201
Kruth, J.-P., *see* Tanaya, P.I. 323

Lawlor-Wright, T. and C. Gallagher, Development of a printed circuit board design for in-circuit test advisory system 253

Maglica, R., Improving the PAC shop-floor control architecture to better support implementation 317
Márkus, A., J. Váncza and M. Horváth, Process planning by retrieval and adaptation 47
Márkus, G., *see* Szelke, E. 31
Melis, T., *see* Bolk, H. 209
Mertins, K., R. Jochem and F.-W. Jäkel, A tool for object-oriented modelling and analysis of business processes 345
Mezgár, I., Cs. Egresits and L. Monostori, Design and real-time reconfiguration of robust manufacturing systems by using design of experiments and artificial neural networks 61
Molloy, O., *see* Jagdev, H. 357
Monostori, L., (Special Issue of Computers in Industry on Learning in Intelligent Manufacturing Systems) 1
Monostori, L. and Cs. Egresits, On hybrid learning and its application in intelligent manufacturing 111
Monostori, L., *see* Barschdorff, D. 5
Monostori, L., *see* Mezgár, I. 61
Moodie, C.L., *see* Shewchuk, J.P. 261

Naeger, G., *see* Reithofer, W. 223
Nedeß, Chr. and U. Jacob, A case-based reasoning approach towards learning from experience connecting design and shop floor 127
Nelson, K.J. and R.U. Ekmark, Engineer co-operation in the specification of a flexible assembly system —a pilot study 237
Nuttin, M. and H. Van Brussel, Learning the peg-into-hole assembly operation with a connectionist reinforcement technique 101
Nuttin, M., *see* Vanherck, P. 119

Oehlmann, R., K.-D. Thoben and F. Weber, Capturing and assessing formal interaction at task level in product development 179

Pels, H.J., J.C. Wortmann and A.J.R. Zwegers, Flexibility in manufacturing: An architectural point of view 271

Rajala, M., T. Savolainen and H. Jagdev, Exploration methods in business process re-engineering 367
Reithofer, W. and G. Naeger, Bottom-up planning approaches in enterprise modelling—the need and the state of the art 223
Roos, E. and A. Behrens, Off-line programming of industrial robots – Adaptation of simulated user programs to the real environment 139

Savolainen, T., Simulation games in CIM and the learning organisation 217
Savolainen, T., *see* Rajala, M. 367
Shewchuk, J.P. and C.L. Moodie, A framework for classifying flexibility types in manufacturing 261
Storm, T., *see* Tichem, M. 155
Storm, T., *see* Willemse, M.A. 245
Szelke, E. and G. Márkus, A learning reactive scheduler using CBR/L 31

Tanaya, P.I., J. Detand and J.-P. Kruth, Holonic machine controller: A study and implementation of holonic behaviour to current NC controller 323
Tatsiopoulos, I.P., An Orders Release reference model as a link between production management and shop floor control software 335
Thoben, K.-D., *see* Krömker, M. 201
Thoben, K.-D., *see* Oehlmann, R. 179
Tichem, M. and T. Storm, Designer support for product structuring—development of a DFX tool within the design coordination framework 155
Timmermans, P., *see* Bongaerts, L. 295

Valckenaers, P., *see* Bongaerts, L. 295
Vallespir, B., *see* Chen, D. 387
Van Brussel, H., *see* Nuttin, M. 101
Váncza, J., *see* Márkus, A. 47
Van Elswijk, P., *see* Bolk, H. 209
Vanherck, P., J. Dehaes and M. Nuttin, Compensation of thermal deformations in machine tools with neural nets 119
Van Praag, A.M., *see* Bolk, H. 209
Verhulst, K., *see* Erens, F. 165
Vermeer, B.H.P.J., *see* Jansen, M.H. 395

Weber, F., *see* Oehlmann, R. 179
Westkämper, E., Supervision of quality in process chains by means of learning process models 71
Wickner, A., *see* Krömker, M. 201
Willemse, M.A. and T. Storm, Designer support for assembly decisions 245
Wortmann, J.C., *see* Pels, H.J. 271
Wöstenkühler, G.W., *see* Barschdorff, D. 5
Wyns, J., *see* Bongaerts, L. 295

Zwegers, A.J.R., *see* Pels, H.J. 271
